

Good Friend, Inc., a Waukesha County-based nonprofit, has been teaching children and adults about autism and good friendship since 2007, and has been a proud Girl Scouts Wisconsin Southeast Community Event Provider since 2014.

Did you know that almost 40% of girls are neurodivergent?

Life Skills for Daisies through Cadettes that align with the GSLE!

Neurodiversity is the idea that we all have different brain wiring. If you don't have a diagnosable brain-based difference, such as autism for example, you are of the "neuromajority", or are "neurotypical". But if 2 in 5 of us think and experience the world differently because our brains process information differently, then we should probably explore that!

Our online autism awareness-acceptance-empathy programs connect specifically with your girls on these levels:

- **Daisies:** Vi, Tula, and Zinni petals help make good friends.
- **Brownies:** Steps coincide with the Making Friends badge requirements.
- **Juniors:** Concepts align with the Agent of Change journey.
- **Cadettes:** Concepts align with the aMAZE! journey.

Our online program includes:

- Everything a Troop Leader needs to easily facilitate a Good Friend autism awareness, acceptance, and empathy building program.
 - A multi-media presentation with a screening of a 20-minute peer education film and activities.
- A printable certificate for each troop member and an "I am a Good Friend" Patch will be sent for each troop member after the feedback evaluation is submitted by the Troop Leader.

Our online Girl Scout Program costs \$50 + tax per troop. You may present the program at anytime

**Is your Troop going to be working on a Bronze, Silver or Gold Award project?
Let us know how we can partner with you to reach that goal!**
