

Empower girls with STEM, problem solving, and leadership skills!

Daphne Draws Data helps Girl Scouts develop data drawing superpowers:

1. Read the book to take your troop on a data drawing adventure.
2. Earn a badge through an interactive graphing event.
3. Access learning videos and graphing activities to continue skill development in an inspiring and fun way.
4. Learn about each other, develop critical thinking skills, and take action with the data.

A fabulous learning experience for Daisies, Brownies, & Juniors!

“We combined troops and had over 50 Girl Scouts laugh, explore, and learn and explore data. Thank you for the sweet story of Daphne and the empowering activity.”

-Kierin Isham; Troop Leader

“I love Daphne so much! We learned how to collect data and draw a bar graph to decide what service project to do next.”

-Charlotte; Brownie
